

*Capture Your Dream
With
Capture The Moment Photography*

Our name says it all! We capture the most important moment of your life - Your Wedding. But we don't just take pictures; we capture your dream using creativity, professional photography equipment and the knowledge and experience to produce your wedding photographs as memories that will last forever.

Capturing your dream takes artistry and talent and the ability to work closely with you to ensure that nothing is left to chance. While you live your dream- we work quietly and discreetly to make sure that each moment of your wedding is captured the way you always imagined.

When we are on site, you are free to enjoy your special day because Capture The Moment Photography will make sure nothing is missed - that all the love and joy of your wedding day is celebrated in the photographs we take.

We also believe that long after your wedding, the best way to relive your dream is with professionally printed high quality photographs rather than less expensive and lower quality computer laser prints. You will be presented with a proof book with the images I take on your day, from there the photos you select will be expertly mounted and presented to you in a beautiful wedding album. A Cd of your wedding proofs will also be provided.

I offer Three Wedding Package Options

Dream Catcher Package {please call for pricing 905-628-0019}

This is our essential package and is tailored to the budgeted minded who want to capture their million-dollar dream!!

I start by attending your wedding rehearsal to meet the parents, and the person who will be officiating at your wedding, and to professionally assess the setting {indoor or outdoor} where you will be married.

On your wedding day, I arrive at the ceremony location 1 hour before the wedding as the Groom and Ushers arrive to take their photographs, help pin on flowers and make sure they look sharp.

Once your car is in view and the Groom is tucked away inside, & the ushers are doing their job, I photograph your arrival at the ceremony, your bridesmaids and your parents, your dad helping you out of the car, and then the precious of moments- you walking down the isle with your dad to meet your future husband.

I capture the special moments of the ceremony including your vows, exchange of rings, and the wedding kiss, signing of the register and the conclusion of the ceremony as you walk down the isle as a married couple.

After the ceremony, I let you mingle with your guests, at this time I am taking candid photographs, then taking both of you entering the car that whisks you both away to a pre -selected location where I devote about an hour and a half for the wedding family, wedding party, and the both of you.

Once you get back into your car to take you to your reception, this is where I leave you, if how ever you are having your reception and pictures taken in the same spot I will go and take pictures of your room and cake and fake your first dance. Then I will leave for you to relax and enjoy your guests and evening.

In 5 weeks I will meet with the both of you and present you with a black proof book with 176 Versa prints, this is a 5x5 card with one 4x5 color print and 2 small prints one in black & white and one in sepia, so you can view each print 3 ways of your special day. Now is the time you can order your Thank You Cards .

At this time I will put up 50 of your images on my web site for your family and Friends to view, If your family are far away and cannot see your wedding proof book I can put all images for them to view. Just ask no charge

*Your Wedding album will have 12 pages - 24 - 8x10's of your choice
When your Wedding Album is ready to proof
You will go on line to see it, approve it. and change if need be.*
